Camp levieux | Rose Hill | 57 22 87 89 | donovan.fidele@gmail.com

## Objective

I am an experienced developer with a vast set of technical skills. I am an organised and efficient with an enquiring mind for new and better technologies. I am also a fun, friendly and honest person who work well in a team but also on my own as I like to set myself goals which I will achieve. I have good listening and communication skills and a creative mind and am always up for new challenges.

## Education

- University of Mauritius
- **BSc. Computer Application**
- Linkeo Academy
- **Formation Webmaster**
- University of mauritius
- **BSc. Computer Science and Engineering**
- New Eton College
- **High school certificate (HSC)**

## Experience

JAN. 2016 – PRESENT

Senior Front-end Developer | Octopouce Digital Agency | Quatre-Bornes

My job is to create accessible websites using Angular JS (all the interactive elements of the website, animations and effects) and integrating front views within backend framework such as laravel/symphony. It also consists of leading small group of developers on new projects as well as customizing/integrating automated tasks bundlers such as gulp/ browserify or webpack for an enhanced workflow.

JAN.2011 – DEC. 2015

Webmaster | Linkeo Agence Web | Quatre Bornes

I was to imagine, design and create new designs and websites for different clients. I was also acting as support for resolving problems/bugs in the company's proprietary CMS and writing guides and documentations for helping improve the level of the developers overall.
